

STOLEN AND FOUND VEHICLES AND LICENSE PLATES

The purpose of this free database of license plates is to allow anyone that had their **vehicle or license plate stolen to report it** here. Any found vehicles and license plates can also be reported so their owners can locate them. In order to report a vehicle OR license plate as stolen or found/located please **search for your plate number** and fill the quick form on the page with your number. Doing this will mark the number/vehicle as stolen or found/located and display it in red along with the **email of the person that reported it**.

Example: CA1234BB

Search

- If you Googled for a license plate or vehicle that you found, please locate it using the search above and report it.
- If you Googled for your missing license plate of vehicle, please locate it using the search above and report it.
- Regardless of country - report here. If you found it, chances are others will Google and find it as well.

Those who seek and those who found will eventually get connected via email here.

We are hoping to help recover some any stolen vehicles. Please send any success stories to us using the [contact form](#). We will publish any success stories here. Like you and many people around the world we have been affected by crime and this lead us to developing this very simple platform to exchange information and help recover plates/vehicles and counter crime with the simple tools that we have (the Google search and this simple database of reports). The advantage of this database is that it shows in Google search results for license plates and this increases the chances of connecting people that look for and those that have found license plates and vehicles.
